

Indore Municipal Corporation (IMC)

COMMAND CENTER PERFORMANCE AUDIT REPORT — June 25, 2026

This performance audit report summarizes the key utility, citizen service, and traffic indicators across Indore District. The data is generated continuously from sensors and IMC 311 citizen helpline nodes, enabling responsive city maintenance. Below is a detailed breakdown of core operational performance indices.

I. Key Performance Indicators (KPIs)

Sector Domain	Primary Metric	Value Recorded	Audit Status
Citizen Engagement	Citizen Complaint Resolution Rate	83.2% (Avg 50.9 Hrs)	Active
Traffic Management	Average Congestion Index	4.23 / 10.0 (31.7 km/h avg)	Normal
Water Operations	Daily Consumption Supply	310,982.1 m³ (Quality: 97.0% compliance)	Secure
Power Grid Control	Power Grid Load Factor / Outages	0.55 LF (2711 total mins)	Attention
Sanitation Services	Waste Collection Rating	4.83 / 5.0 Rating (3,581.4 tons)	Optimal

II. Citizen Service & Complaint Details by Department

Department Name	Total Tickets	Resolved	Resolution Ratio	Avg Duration
IMC 311 Help Desk	372	308	82.8%	63.5 hrs
IMC Traffic & Roads	401	337	84.0%	32.5 hrs
IMC Water Works Dept	414	341	82.4%	54.2 hrs
MPWZ Electricity Board	378	316	83.6%	55.7 hrs
Swachh Indore Waste Management	435	361	83.0%	50.1 hrs

III. Smart Utility Systems Overview

Water Supply Grid: Ingested water consumption totals 310,982.1 m³ over the logging phase with 18 leaks successfully flagged and repaired. Pressure standards remain stable around 4.2 bar average.

Electrical Grid: Power grid loads average 0.55 load factor. Grid reports a total outage accumulation of 2711 minutes over the current monitoring calendar. Mitigation mechanisms have been assigned to Vijay Nagar Grid (Res) to reduce voltage instabilities.

Sanitation Services: Waste collection logistics report 3,581.4 tons collected. Averaged sanitation rating registers at 4.83 / 5.0, with 24 logged missed pickups under audit.
